PROFESSIONAL SUMMARY

Highly motivated Front-End Developer with hands-on experience in wireframing and front-end development. Demonstrated ability to transform design concepts into functional websites and applications using various front-end frameworks and technologies. Strong collaborative skills, having worked closely with multidisciplinary teams to achieve project goals. Seeking to bring a blend of creativity and technical proficiency to a dynamic development team.

SKILLS

- Html
- Css
- JavaScript
- TypeScript
- React
- Next.js

- Tailwind Css
- Bootstrap
- Figma
- Node.js
- Express.js
- Mongo DB

PROFESSIONAL EXPERIENCES

Moove Media.Co - Remote **July 2024 - Present**
IT Intership

Accomplishments:
- Assisted in the design and development of front-end interfaces for various media projects, ensuring a user-friendly and visually appealing experience.
- Built wireframes for website and application projects using Figma, contributing to the initial design and layout stages.
- Participated in weekly team meetings to discuss project progress, brainstorm ideas, and provide updates on assigned tasks.

- Delivered assistance and support for team-based IT projects.
- Assisted in the creation of multimedia presentations for client pitches and internal reviews

English   **Intermediate**

PERSONAL PROJECTS

Movie Website: https://movieflix-swart.vercel.app   **February 2024 - March 2024**

Description:
- Developed a dynamic movie website where users can find the latest movies by genre and search for movie names.

Key Responsibilities:
- Designed and implemented the website layout and user interface using React and Bootstrap.
- Integrated the TMDB API to fetch and display up-to-date movie data.
- Implemented a search bar feature allowing users to find specific movie titles.
- Utilized React Router with TypeScript to manage navigation and dynamic routing.
- Handled and resolved complex error handling issues with React Router and TypeScript.

Achievements & Outcomes:
- Successfully overcame significant challenges with React Router and TypeScript error handling, enhancing problem-solving skills.
- Completed the project within a couple of days after resolving the routing issues, demonstrating perseverance and technical proficiency.
- Enhanced my understanding of integrating third-party APIs and advanced frontend development techniques.

Tech Stacks:
- React
- TypeScript
- Bootstrap
- TMDB Api

Pizza Ordering Website: https://github.com/Htet-Wy/butapizza   **March 17 2024 - March 24 2024**

Description:
- Developed an online platform for users to order pizza, featuring a seamless user interface and interactive elements.

Key Responsibilities:
- Designed and implemented the website layout and styling using React and Tailwind CSS.
- Utilized Redux Toolkit for efficient state management across the application.
- Integrated Framer Motion to add animations, enhancing user interaction and experience.
- Managed the complexity of animation timing for different sections to ensure smooth transitions.
- Implemented a JSON server to fetch and display pizza menu data dynamically.
- Developed features for users to customize their pizza orders and manage their cart.

Achievements & Outcomes:
- Successfully learned and applied Redux Toolkit for state management, improving application performance.
- Overcame challenges related to animation timing and state management, demonstrating adaptability and problem-solving skills.
- Enhanced the overall user experience with dynamic animations and a responsive design.
- Improved data handling and presentation by using JSON server for menu data, ensuring up-to-date and accurate information.

Tech Stacks:
- React
- TailwindCss
- Redux Toolkit
- React Redux
- Framer Motion
- JSON Server
